

CROOK & WILLINGTON URBAN DISTRICT COUNCIL

1

CROOK AND WILLINGTON
URBAN DISTRICT COUNCIL

REPORT
OF the
MEDICAL OFFICER
OF HEALTH
for the
Year Ended 31st December, 1971.

No. 6 Area Health,
"S. ringfield"
WILLINGTON,
Crook,
Co. Durham.

Telephone: Willington 375.

PUBLIC HEALTH OFFICERS
OF THE COUNCIL

-----ooooOoooo-----

Medical Officer of Health - G. A. MACGREGOR, M.D., D.P.H., M.R.S.M., F.R.S.P.H & H.
Chief Public Health Inspector - J.B. KELLY, D.P.A.(Dunelm.,) D.M.A., A.M.S.M.
Public Health Inspector - C. E. DAVISON, M.A.P.H.I.
Public Health Inspector - E. LEES, M.A.P.H.I.
Public Health Inspector - T. LEES, M.A.P.H.I.

To the Chairman and Members of Crook and Millington U.D.C.

Ladies and Gentlemen,

I have the honour to submit my Annual Report for the year 1971.

During 1971 the birth rate at 14.3 per 1,000 estimated population was well below that of England and Wales at 16.0 per 1,000 population while the death rate was above at 13.9 per 1,000 estimated population as compared with 11.6 per 1,000 population for England and Wales. Since 1968 following the decline in coal mining in your area the population according to the Registrar General's figures has declined. Of the total deaths 10.2% were attributable to diseases of the heart and circulatory system.

There was a marked decline in the number of cases of measles this year as compared with 1970, possibly as the result of the anti measles campaign of the previous two years. For several years now no cases of poliomyelitis nor of diphtheria, dysentery, typhoid or para-typhoid have been recorded. There were 5 cases of food poisoning recorded and it is becoming evident that this condition will require careful watching.

Preventive measures against poliomyelitis, diphtheria, whooping cough and tetanus were continued as routine measures among children at clinics and schools in the area. Measles immunisation, started in 1968, was also pursued in 1971 and the response was satisfactory. Immunisation against german measles commenced during 1971 and was offered to girls of 11 - 13 years of age. The response was good.

Tuberculin testing in schools followed by B.C.G. immunisation was continued both among school entrants and at 11 years of age onwards. Contact tracing and early reference of tuberculin positive cases to specialist control were established routine practises.

Slum clearance was pressed forward with vigour and many visits were paid to poor premises for various reasons including illness, management difficulties, problem cases and others.

The attendances at the three Maternity & Child Welfare Clinics were satisfactory but the decline in ante-natal visits continued - a decline which follows a national pattern and is due to the increasing participation of the general practitioner in this field of medicine. The relaxation classes and classes in mothercraft have been moderately successful, and the cervical smear test clinics are proving to be satisfactorily attended.

The chiropody clinics in operation in your area have been increased but still there is no prospect of home chiropody service as yet.

Unfortunately, in my opinion, it has been decided to transfer the local headquarters of the Social Services Department to Bishop Auckland from the No. 6 Area Health Office, at "Springfield", Millington, a move which supports centralisation as against the more acceptable policy of decentralisation.

The water and milk supplies to your area continued to be satisfactory and gave no cause for alarm from a public health point of view.

Your Chief Public Health Inspector has appended his report to this one.

In conclusion the state of public health in your area for 1971 was satisfactory.

I take this opportunity of thanking my colleagues for their pleasant and welcome co-operation and also the members of the Council for their assistance and continued interest during the year.

I have the honour to be, ladies and gentlemen,

Your obedient servant,

G. A. MACGREGOR,

Medical Officer of Health.

CONDITIONS OF THE AREA

Population (Registrar General's Estimate - Mid Year)	...	...	21,530
Area (In Acres)	...	...	15,476
Number of inhabited houses (Mid Year)	...	...	8,195

ANNUAL REPORT OF THE CHIEF PUBLIC HEALTH INSPECTOR

1. WATER SUPPLY - The Durham County Water Board are the principal suppliers of water in the area and the vast majority of houses are connected to their mains. No houses are supplied by means of stand pipes.

There is no evidence of plumbic solvent action in the water supplied in this area.

2. VISITS - The following is a summary of the visits undertaken by Officers of the department during the year in pursuit of their official duties:-

(1) Housing (Public Health and Housing Acts)...	3556
(2) W.C. Conversions and Defective Sanitary Conveniences ...	25
(3) Drainage ...	377
(4) Water Supply ...	9
(5) Food Premises and Slaughterhouses ...	1060
(6) Tents, Vans, etc. ...	11
(7) Factories and Workplaces ...	26
(8) Keeping of Animals ...	6
(9) Insanitary Ashpits and Receptacles ...	11
(10) Offensive Accumulations ...	5
(11) Smoke Nuisances ...	6
(12) Prevention of Damage by Pests Act, 1949 ...	65

To this list must be added numerous other visits and inspections which cannot be categorised, in connection with the health and well-being of the residents of this district.

3. NUISANCES ETC. - The following table shows the principle nuisances dealt with during the year, by means of notices:-

	Informal Notices Served	Statutory Notices Served	Defects Remedied After Notices
Public Health and Housing Acts	24	7	13
Defective Sanitary Conveniences	-	8	8
Drainage	1	1	2

Other nuisances were remedied and complaints dealt with as a result of informal action by Officers of the department without resorting to the use of notices.

4. SCHOOLS - Occasional inspections of schools in the district were made in connection with sanitary accommodation and washing and canteen facilities.
5. PREVENTION OF DAMAGE BY PESTS - During the twelve months ended 31st December, 1971, 190 properties were inspected and the number of infestations and reinfestations was 180. Treatment was carried out accordingly. No charge is made for the treatment of domestic property but shops and agricultural hereditaments are treated on a cost plus supervision basis. Close supervision of the Council's refuse tips and sewage works continued during the year.
6. SMOKE POLLUTION - Industrial smoke pollution is not a major problem in this area and informal action sufficed to deal with isolated complaints of smoking chimneys, burning of rubbish and dust emissions.
7. W.C. CONVERSIONS - During the year 2 W.C. conversions were effected. Cloacal closets and siphon closets remain only in property which has a short life or where drainage or water supply difficulties exist.

8. SHOPS AND FOOD PREMISES - Continuous supervision of food shops and food preparing premises has been maintained during the year to ensure that these premises comply with the Food Hygiene Regulations and attain a satisfactory standard of hygiene.

The following premises in the area are concerned with the manufacture and/or retailing of food:-

- 15 Butchers.
- 4 Chemists.
- 11 Fish Shops.
- 50 General Dealers.
- 39 Grocers.
- 6 Greengrocers.
- 7 Stalls.
- 23 Restaurants, School Kitchens, Hotel Kitchens, and Canteens.
- 7 Bakehouses.
- 11 Premises registered for the preparation or manufacture of sausage or preserved food etc.
- 4 Premises for the manufacture and sale of ice cream.

The total number of premises registered for the retailing of ice cream is now 62, there being 2 applications for registration during the year under review.

9. SLAUGHTERHOUSES - 4 registered slaughterhouses were operating during the year and 1060 visits were paid to those establishments and food premises generally for the purpose of food inspection and enforcement of hygiene requirements.

The following table gives details of the carcasses and offal inspected and condemned in whole or in part:-

	<u>Cattle- Excluding Cows</u>	<u>Cows</u>	<u>Calves</u>	<u>Sheep & Lambs</u>	<u>Pigs</u>
Number of carcasses inspected	4042	228	42	6125	11134
<u>All diseases except Tuberculosis and Cysticerci:-</u>					
Whole carcasses condemned	18	39	9	44	41
Carcasses of which some part or organ was condemned	312	102	-	126	444
Percentage of the number inspected affected with diseases other than Tuberculosis and Cysticerci	8.16	61.84	21.43	2.78	4.36
<u>Tuberculosis only:-</u>					
Whole carcasses condemned	-	-	-	-	-
Carcasses of which some part or organ was condemned	-	-	-	-	87
Percentage of the number inspected affected with Tuberculosis	-	-	-	-	.79

No beasts' carcasses were found to be affected with Cysticercus Bovis.

10. FOOD WASTE COLLECTED - During the year 17 tons. 19 cwt. 1 qr. 1 st. 13 lbs. of fresh meat and 1 cwt. 2 qrs. 1 lb. of miscellaneous tinned food and loose provisions were condemned as unfit for human consumption. Condemed carcass meat is disposed of by the trade to local firms for processing, including the manufacture of animal feed. Unsound tinned food and loose provisions are destroyed at the Council's refuse tips. Carcasses affected with C-Bovis are subjected to refrigeration for periods of two to three weeks at the prescribed temperature.

Houses represented for clearance or closure during the year: ...	27
Improvement Grant Applications approved	219
New houses erected by Local Authority	113
New houses erected by private persons	15

As in other years a great deal of attention has been paid to the condition, repair and maintenance of housing in the area and the encouragement of improvements to suitable older properties.

12. COLLECTION AND DISPOSAL OF REFUSE AND SAVVAGE

Number of premises cleaned weekly	...	...	...	...	...	...	8379
Number of collections during the year	...	...	...	...	...	...	43572
Total refuse collected	...	...	...	...	...	...	9700 tons.

Refuse Disposal Plant	...	...	...	...	...	...	1

Collection of refuse was maintained on a weekly basis during the year and the bulk of the refuse collected was disposed of by controlled tipping at the riverside site at Willington.

13. FACTORIES ACTS - During the year 26 inspections of premises subject to the Factories Acts were made principally in connection with sanitary accommodation.

In conclusion I would express to the members of the Council my appreciation of their support and encouragement during the year and my sincere thanks to my colleagues and all the staff of the Health Department for their invaluable assistance and co-operation.

J. B. KELLY,

Chief Public Health Inspector.

A-PENDIXFACTORIES ACT 1961

Secretary of State for Employment and Productivity

This table is enclosed by request of the/~~MINISTER OF HEALTH~~ to indicate to Medical Officers of Health the prescribed particulars which are required by Section 153(1) of the Factories Act, 1961, to be furnished in their Annual Reports with respect to matters under Parts I and VIII of that Act which are administered by the District Council. This table, which is not intended to supersede the fuller statement which is desirable in the text of the Report, should be attached as an annex to the Report.

ANNUAL REPORT OF THE MEDICAL OFFICER OF HEALTH
IN RESPECT OF THE YEAR 1971 FOR THE⁺ URBAN DISTRICT COUNCIL
OF CROOK AND IN THE COUNTY OF
WILLINGTON

Prescribed Particulars on the Administration
of the Factories Act, 1961
